Elephant Butte Trip March 19 - 21

There were about 16 rigs attending the Elephant Butte trip, and a great time was had by all. Weather was nice except for some wind.

Friday Happy hour was at 4 pm, and there were grills available for members to cook steaks, burgers, or whatever for Friday evening dinner,

Saturday morning, we all got together for breakfast in the clubhouse. Some brought items to share, and some brought their own food.

The Gum's discovered a quaint winery about 20 miles south of Elephant Butte, and a group of members went down for a wine tasting Saturday afternoon. They had about 15 different varieties of wine to taste. You can see the happy campers in the following picture.

RV Tips

Some items to consider for your rig:
Water Pressure Regulator - The correct water pressure for an RV can vary depending on the model and the condition of your RV's plumbing system. Modern RVs can handle up to **100 psi** of water pressure. However, most RV experts recommend you never let the water pressure exceed **60 psi**. Somewhere around 40 to **50 psi** is ideal.

Joke of The Month

A husband had the solution to forgetting his wife's birthday and their wedding anniversary: He opened an account with a local florist and provided it with both dates as well as instructions to send flowers and a card signed "From Your loving husband,."

For a few years, it worked great. Then one day, he came home on their wedding anniversary and saw flowers on the dining room table. It all came to an end when he absentmindedly asked his wife "What nice flowers. Where did you get them?"
